

10 Reasons Senior Cats Rule!

Garfield
 Male/Neutered/ Orange Tabby
 Born: 2009

If you look into Garfield's eyes they can tell a story of pain and suffering of the days of trying to protect himself out in an old chicken barn that was abandoned and infested with Water Rats and Coyotes. When Garfield was rescued in March 2013 he could only walk on 3 legs as he had many open wounds and bits from the rats. His ears were badly frostbit over the years as there was little to protect him from the winter weather. Garfield lived outdoors with over 50 cats and his job was protecting them all . He is a very gentle boy who only wants to be loves and will give him a place to call home. Our Job is to finally give Garfield the warm and loving home he deserves. He loves all cats but would prefer a quite home and no dogs as he is

1. *When senior cats are adopted, they seem to understand that they've been rescued, and are all the more thankful for it.*
2. *A senior cat's personality has already developed, so you'll know if he or she is a good fit for your family.*
3. *You can teach an old cat new tricks (I do every day with my own cats!): Senior cats have the attention span and impulse control that makes them easier to train than their youthful counterparts.*
4. *A senior cat may very well already know basic household etiquette (like not attacking your feet at night) anyway!*
5. *In particular, senior cats are often already litter trained and are less likely to "forget" where the box is.*
6. *A senior cat won't grow any larger, so you'll know exactly how much cat you're getting.*
7. *Senior cats are often content to just relax in your company, unlike younger cats, who may get into mischief because they're bored.*
8. *Speaking of relaxing, senior cats make great napping buddies.*
9. *Senior cats often know that scratching posts (not furniture) are for scratching and toys (not hands or feet) are for biting.*
10. *Senior cats are some of the hardest to find homes for - so when you adopt a senior cat, you're truly saving a life.*
