Senior Pet Therapy Program!

Beamsville 4Paw Rescue has designed a Pet Therapy Foster Program that provides the seniors not only with a pet but the food and supplies for the animal.

Pet owners often feel needed and responsible, which may stimulate the survival incentive. They feel they need to survive to take care of their pets. (Many cancer patients with pets have lived longer because they felt that their pets need them!) Stroking a dog, watching a kitten tumble, or observing the hypnotic explorations of fish can be an antidote to a foul mood or a frazzling day.

Research has shown that heart attack, cancer and illness victims, who have pets live longer

Pets such as dogs and cats provide unconditional, nonjudgmental love and affection. And pets can shift our narrow focus beyond ourselves, helping us to feel connected to a larger world.
