## Black Cats/Kittens!

**DID YOU KNOW THAT BLACK CATS** have the lowest adoption rate and the highest euthanasia rate? Whether because of superstition, prejudice, or simply because they blend into the shadows in the back of the cage, black cats are statistically less likely to be adopted than more brightly colored felines.

Many rescues are reluctant to accept black cats into their program as they are so hard to re-home, meanwhile these wonderful cats are left waiting in pounds and municipal shelters with hopes of finding a loving home, only to be destroyed once their time is up. Most adopters prefer the flashier, more colorful cats, such as the orange and calico's or the classic tabby and often overlook these regal & exotic beauties.

Yet the black cat is probably the gentlest of all breeds and the smartest.

They were always considered good luck in England and are still considered good luck throughout most of Europe.

If you are thinking of adopting, please consider adopting a black cat, you are truly saving a life!!!

They have so much love to offer and ask for so little in return.

Most of the black cats that we have rescued, have had the most wonderful and loving personalities.

## Easter Egg Hunt & Dog/Puppy Adoptions!

Bring your sniffer and hop, hop, hop to the prizes and treats. The pets will have their individual time to sniff their way to find the hidden eggs filled with hidden nummies. Mmmmm , mmmmm.

Every egg will be filled with fresh Pet Valu treats for a donation of \$5.00 per pet. When your pet detective finds their new Pet Valu treat, it is theirs to keep.

All funds raised will go towards helping all of our animals in need at the Beamsville 4Paw Rescue.

Thank you soooo much for coming out and helping with our fun day!!!!!!!!!!
